

# Charleston Bay

## Architectural Modification Request

---

The Charleston Bay Covenants provide for a certain level of visual symmetry for appearance throughout the community. This is especially true for any permanent changes that will affect residential appearance and any infringement on a neighbor.

Please let us know what information you need as you prepare for your resident project or what approvals you want in order to proceed. The ASC committee will respond as quickly as possible. However, due to schedules, please allow our volunteer committee at least than 10 working days.

Fill in the information below.
